Architects, Prime Contractors and Sub-Contractors may contract with either firm directly without additional competition. Although either firm may be chosen and engaged without additional competition, it remains a best practice to request bids or quotes from both firms to encourage project cost savings. Please reference the above contract numbers when engaging and contracting with the firms.

All types of signage are available from the two (2) firms including but not limited to wayfinding, plaques, marquee, monuments, electronic, etc. The firms may also provide design, DSA and installation services so a turn-key solution is provided reducing the need for additional sub-contractors and limiting additional costs. Please contact the firms to confirm availability of products and services. The above firms provided signs and services on several BuildLACCD projects and are experienced with DSA.
