

## GENERAL INFORMATION

**Architect:**

Sillman Wright Architects

**General Contractor:**

Harper Construction

**Program Management:**

Jacobs

**Construction Contract:**

\$16 Million

**LEED Certified**

## School of Science

The new School of Science building will include a large lecture hall and nine laboratories specialized for different disciplines. The two-story, 26,790 square foot building will be a LEED Certified, steel framed structure that is designed to be in harmony with existing campus buildings. The building includes classrooms, laboratories, stockrooms, storage, a shared lecture hall, and administrative spaces for Life Sciences, Chemistry, Physics, and Earth Sciences faculty.

The building design includes two exterior staircases, and elevator and a roof-top observation deck for the Astronomy program.

The building will include energy efficient appliances and incorporates a storm water management system, drought tolerant landscape, daylight sensors for lighting, LED Light Fixtures, “cool” roofing system, and recycling stations.

Founded in 1967, Los Angeles Southwest College has been dedicated to social justice, community activism and ensuring all students receive a truly transformational college experience. Southwest College awards associate degrees in more than 30 fields and occupational certificates in more than 45 disciplines. The recent influx of support for campus infrastructure and progressive programs provide students with a stellar learning environment and a foundation for them to give back to their communities.
