

LOS ANGELES COMMUNITY COLLEGE DISTRICT LOCAL WORKER HIRING PROGRAM

FACT SHEET

PROGRAM BACKGROUND

The Los Angeles Community College District (LACCD) Board of Trustees established a Community Economic Development Program to maximize local economic benefits generated by the \$6.2 billion Build Program. The Local Worker Hiring Program is geared to involve local residents living in the areas neighboring the colleges in construction trade opportunities. Additionally, LACCD entered into a Project Labor Agreement (PLA) with the Los Angeles/Orange County Building and Trades Council and Southwest Regional Council of Carpenters. The PLA establishes the local worker hiring goals and the labor relations policies and procedures for the District, contractors and craft employees engaged in the Build Program.

ACCESS TO PRE-APPRENTICESHIP TRAINING

ACCESS TO UNION APPRENTICESHIP

Project Labor Agreement Goals

Project Labor Agreement (PLA) provides the program framework for the Community Economic Development Program in Article III, Section 3 (c)(i) and (ii):

- 35% of all skilled trade positions performing project work shall be Local Workers.
- 10% shall be Veterans and Disadvantaged Local Workers

Local residency is defined by zip codes in two preference areas; the Primary Residency Preference Area includes zip codes within the college campus neighborhood followed by a Secondary Residency Preference Area that includes zip codes within the LACCD service boundary.

Training Enrollment

Los Angeles Trade Technical College

400 West Washington Blvd.
Los Angeles CA 90015
